

I'm a result-driven web developer passionate about software architecture and design who is able to realise elegant projects from ground up. I'm well versed in key languages of the web like HTML5, CSS3, JavaScript (ES6+), ReactJS and NodeJS and dedicated to learning more languages to stay up-to-date with the most relevant programming foundations available. Looking forward to joining, learning and growing with a team of like-minded developers.

Istayfo Ergün

Junior Web Developer
